IN TAMPICO SECTION

Message Stating Situation Received From 300 Ousted Persons by Senator Stone.

There are fully 300 American men. women and children in the territory tributary to Tampico, whom it was impossible to reach in time, and who, consequently, were unable to avail themselves of a safe refuge. We fear greatly that if they have not already been murdered, their lives are in gravest

This was the message from refugees on the steamship Connecticut, off Galveston, which Senator Stone, chairman of the Senate Foreign Relations Com-mittee, received today. It was signed by several hundred, and giving the first curate account of the riots and loot-

ing at Tampico.
"In all, from Tampico district." the petition continues, "there are over 2,500 American men, women and children, who have been forced to leave their homes and business for the lack of ade-quate protection from our Government Had one American gunboat been allowed to remain in the harbor, it is believed that there would not have been any ac-tive demonstration or attempt to destroy American propery, notwithstanding the biter feelings oward Americans."

Can't Estimate Value.

"It is impossible to estimate the value of the business and property interests which have been abandoned by the 2,500 Americans who have been forced to leave this part of Mexico to be concentrated in eTxas ports.

"Since Tampico and the adjacent vicinity is the only district in Mexico has been practically undis turbed in the republic during the help but feel that conditions making our exodus compulsory were brought about solely by the fact that our government failed to give us adequate protection at the critical mo-

ment.
"The properties, large and small, which we have been compelled to ahandon by existing conditions will be entirely lost unless our government sees fit to protect those properties and give us immediate relief in order that we may recture to look

order that we ma vreturn to look after them ourselves. "The great number of refugees will be left homeless and destitute, and what is true in this respect of the Tampico district is undoubtedly true of all other portions of Mxeico.

No Hope of Safety.

The failure of our Government t take a definite stand at this critical moment will make it impossible for us to ever hope to return with safety to what we have been forced to abandon.

"On the morning of the 21st of th resent month (April) Consul Miller re ceived advices that the gunboats of Admiral Mayo's command had been ordered out of the port of Tampico by the American Government and were to leave

within one hour. "No intimation was given to the American residents of any danger whatsoever. While we considered the leaving of the gundoats rather extra-ordinary, still no uneasiness was felt. In the afternoon rumors became insistent upon the streets that the American forces were landing in Vera Cruz.

"About 2:30 an official bulletin was posted advising the Mexicans that the American forces had landed, and appealing to them to take up aims to de-fend their country.

Search Every Place

'Armed Mexicans were running in every direction. Word was sent to the Mexican authorities were con stantly searching every place owned by Americans for arms and ammunition, and the few arms left in the possession of Americans were only those that had not been found.

"After dark manifestations were made in the shape of street parades, principally composed of the rabble and the young men, velling 'Viva Huerta,' and 'Death to the gringoes.' Stones were thrown, a brick striking two Americans at the Southern Hotel.
